## Swimming Pool Fencing Requirements

All outdoor swimming pools, whether above or in ground for residential, shall be enclosed completely by a fence with a minimum height of four (4) feet and a maximum height of eight (8) feet. All fence openings or points of entry into the pool area enclosures shall be equipped with gates. All gates shall be attached with self-latching devices placed at the top of the gate. All materials shall be decay or corrosion resistant i.e. treated wood, chain link, plastic, brick or any material approved by the Code Administrator. The fence shall not have openings greater than 16 square inches (4"x4").
